AEP Linac

Worldwide source for
Linac magnetrons, thyratrons and other parts

AEP Linac is the world's largest independent supplier of Teledyne e2v magnetrons and thyratrons used in (medical) linear accelerators. Besides magnetrons and thyratrons AEP Linac offers a wide variety of other linear accelerator parts.

AEP Linac is an activity of AEP International B.V. with its headquarters in the Netherlands and strategically placed warehouses in Australia, New Zealand, South Korea, Singapore and the United States.

For more than 35 years we have helped radiotherapy centers keeping their maintenance costs low and reduced their downtime to a minimum by providing fast response and shipping times, reliable deliveries, competitive pricing and full factory support and warranty.

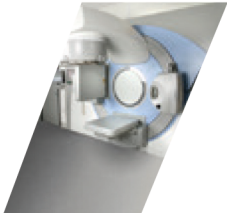

Due to our experience we know that fast deliveries are crucial for the market and therefore we keep stock of all common types of magnetrons, thyratrons and a large variety of other critical linear accelerator spare parts.

TELEDYNE e2v
Everywhere you look™

For more than 50 years the magnetrons and thyratrons from Teledyne e2v technologies have been 'the tube of choice' for linac manufacturers all over the world. The original equipment manufacturers only approve Teledyne e2v products for service replacements.
